

Is This the Life for You?...

Would you like to live the *Coastal Lifestyle* in a stress and high-pressure *free* workplace whilst still receiving a 'Big City' remuneration?

G'day,

My name is Neil Kennedy – Owner/Manager of **Kennedy Surveying**. Perhaps you may have encountered me at ISNSW ADS 2020 in January, where I presented on the virtues of a healthy lifestyle for Surveyors?

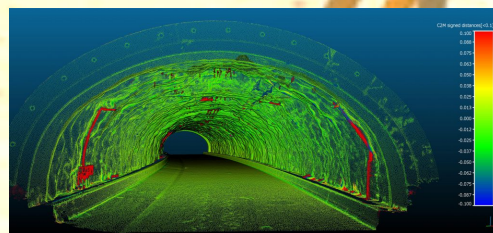

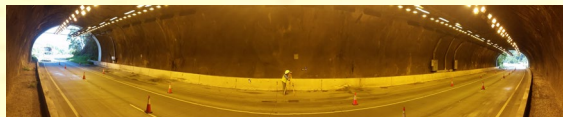

Kennedy Surveying has been in operation in the **Byron/Ballina** region since 1989. In that time we have quietly but steadily grown to become a national leader in both Surveying and Spatial Information – The awards here to the left tell the story. Our practice is small, highly skilled and most importantly, harmonious.

At **Kennedy Surveying**, we currently need more good people, probably 2-3, maybe even up to 4-5. We need people from all levels of the profession including:

- Survey Manager
- Registered Surveyor
- Senior Surveyors
- Spatial CAD/GIS Operators
- Graduate Surveyors
- Survey Technicians
- Undergraduates

Our fields of expertise (and subsequent Client base) is very technology driven and includes:

- Cadastral
- Spatial
- High Definition Scanning
- Photogrammetric DEM by Drone
- Bathymetry of waterways
- Building Information Modelling
- Subsurface Utility Mapping
- Engineering & Topographical

You might be proficient (or learning) one or several of these specialities, maybe wanting to get into one, or perhaps you can bring something new to the Team!

Remuneration is **ALWAYS** above Award Rates and Conditions and commensurate with your skills and experience – and don't forget the **lifestyle!** Progress in Continuing Professional Development (CPD) is a given and standard working hours (8:30-5, no weekends) are the norm. Gender, Age and/or Ethnic Background are not an issue – nor should they be.

So come on, "**what the bloody hell are you waiting for?**" Simply make initial contact with me by email on neil@kennedysurveying.com.au and I will get back to you ASAP. **Paradise awaits - Let's talk!**
